Dear, Khushi Didi,

I am Heet your cousin writing this letter from Mumbai. You know how things have been in lockdown right? I am living alone in Mumbai and during this lockdown I have been very bored. I want someone to live with.

First of all, the negative points of living alone are:

- We get very bored.
- We get scared.
- We have a lot of time and nothing to do.

And you know that the people in my building are not allowed to come to someone house.

The advantages of living with someone are:

- They both can do many things together like playing games and all.
- They utilize the time and use it to do chores without getting bored.
- They can have fun together.

So now you know the reasons please come to my house to live with me because of the following reasons. I wish you will come to my house to live with me during the lockdown.

Love

Heet
